Updated saved memory

Absolutely! I'd be happy to teach you how to play the piano from scratch, and I'll guide you step by step in a quick and practical way. Here's a beginner-friendly roadmap to get you started:

Week 1: Learn the Basics

Goal: Get comfortable with the layout of the piano and start playing simple melodies.

1. Understand the Keyboard Layout

- The piano has repeating sets of **12 keys**: 7 white and 5 black.
- Look for **groups of 2 and 3 black keys** — they help you find your place.
- **Middle C** is your anchor — find the group of 2 black keys in the middle and play the white key just to the left of them.

2. Finger Numbers

- Both hands use fingers 1 to 5 (thumb = 1, pinky = 5).
- Get used to placing each finger on a key.

3. Simple Exercises

- Place right-hand fingers 1-5 on C-D-E-F-G.
 - Play slowly: C-D-E-F-G and back.
 - Do the same with the left hand: C-B-A-G-F.
-

Week 2: Simple Songs & Chords

Goal: Play simple songs and understand how chords work.

1. Play Simple Melodies

Try songs like:

- **“Mary Had a Little Lamb”**
- **“Twinkle Twinkle Little Star”**

Use just the right hand for now. I can give you sheet music or letter notes.

2. Basic Chords

Chords are 3 notes played together. Start with:

- **C major:** C-E-G
- **F major:** F-A-C
- **G major:** G-B-D

Use your left hand for chords and right for melodies.

Week 3: Left + Right Hand Together

Goal: Combine melody and chords.

- Play a simple melody with your right hand.
- Add chords with your left hand at the beginning of each bar.

Example:

- Melody: “Twinkle Twinkle Little Star”
 - Chords: C – G – C
-

Tips for Learning Quickly

- Practice **15–30 minutes daily**.
 - Focus on **coordination** more than speed.
 - Use **YouTube tutorials** or piano apps (like Simply Piano or Flowkey) to supplement.
-

Would You Like:

1. A visual diagram of the keyboard?
2. A list of 3 beginner songs with letter notes?
3. Printable daily practice routine?
4. Access to free online piano simulators?
